PROFESSIONAL SUMMARY

I am a seasoned software engineer with expertise in JavaScript, React, Node.js, and cloud technologies, delivering scalable web applications and driving business growth through innovative solutions. I excel in leadership, communication, and problem-solving, leveraging my experience in full-stack development and cloud architecture. With a strong track record of driving high-performing teams and optimizing system performance, I effectively lead cross-functional teams to deliver complex projects.

WORK HISTORY

Tech Solutions Inc. - Senior Software Engineer
San Francisco, CA
2022-01 - Present

Led a team of 5 developers to rebuild the company's core e-commerce platform, resulting in a 40% improvement in page load times. Implemented CI/CD pipelines reducing deployment time by 60%. Mentored junior developers and conducted code reviews to ensure high-quality standards.

StartUp Innovations - Software Engineer
San Mateo, CA
2019-06 - 2021-12

Developed and maintained multiple React-based projects. Collaborated with UX designers to implement responsive and accessible interfaces. Optimized API endpoints for faster data retrieval.

PROJECTS

E-commerce Dashboard
Tech: React, Redux, Node.js, MongoDB

A comprehensive dashboard for managing products, orders, and analytics. Built with React, Redux, and D3.js for data visualization.
