Profile Summary

Final-year Information Science and Engineering student with strong Java, Data Structures, OOP, and DBMS fundamentals. Hands-on experience building full-stack MERN applications, REST APIs, and working with MongoDB/MySQL. Familiar with Git, basic Agile practices, debugging end-to-end issues, and interested in cloud, AI/ML, and data-driven application

Education

Bachelor of Engineering **CGPA : 8.4 | Aug 2022 – May 2026**
Bapuji Institute of engineering and Technology, Davanagere

PUC **Jun 2020 – Mar 2022**
Mandara Residential PU College, Harihara, Davanagere

Projects

Doctor Appointment Web Application Github **MongoDB | Express.js | React | Node.js | REST API**

- Built a full-stack doctor appointment platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented REST APIs for user registration, login, doctor/patient management, and appointment booking.

Library Management Web Application Github **MongoDB | Express.js | React | Node.js | REST API**

- Developed a web application to manage books, students, and issue,return workflows using MERN stack.
- Designed CRUD APIs for books and users, and implemented search,filter features for faster access.
- Deployed the application using Render for Backend and Vercel for Frontend. Link

Skills

- **Programming Language: Java, C, JavaScript, HTML, CSS**
- **Tools & Platforms: GitHub, VS code**
- **Databases: MySQL, MongoDB**
- **Core CS Concepts: Data structures, CN, DBMS,OOPs**

Certification

- **NPTEL** Database Management Systems Link
- **Internship 6.0 –** Library Management System, Infosys Springboard (2025–2026) – Implemented Google Login, AI chatbot dashboards, and email notifications. Link

Internship Experience

Intern – Library Management System | Infosys Springboard Nov 2025 – Jan 2026

- Built a Library Management System with Google Login authentication.
- Implemented an AI chatbot for student, admin, and librarian dashboards to assist users.
- Added email notifications for book issue, return, and reminders.
